

Figure 1

Release profile of microspheres prepared
according to example 1

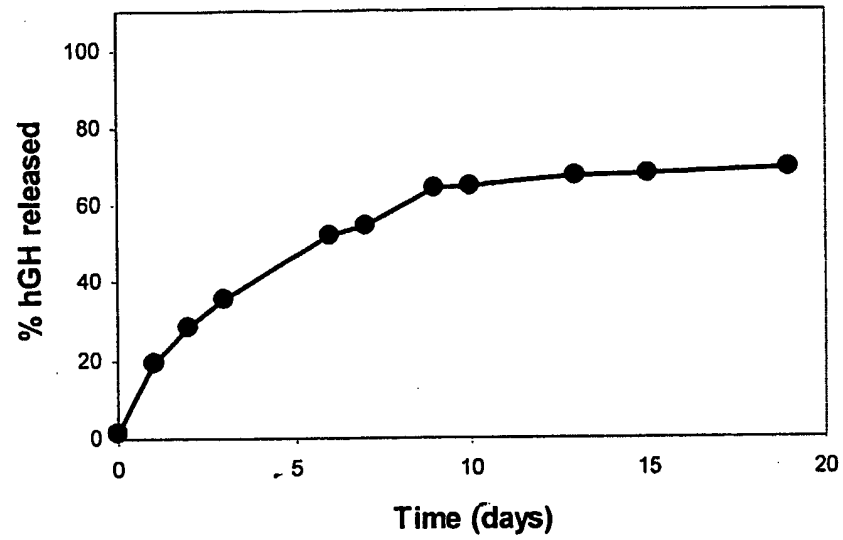

Figure 2

**Release profile of microspheres obtained from
the emulsion prepared according to example 2**

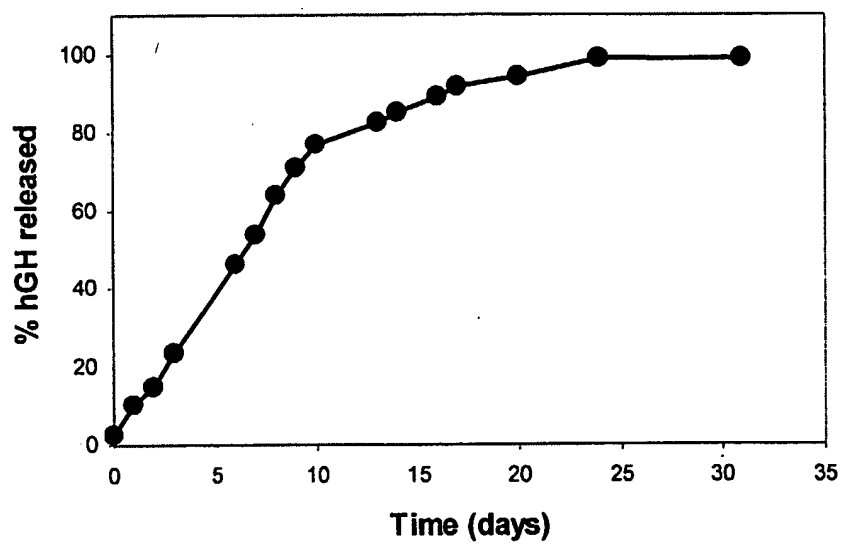

FIG. 3

**Release profile of microspheres obtained from
the emulsion prepared according to example 3**

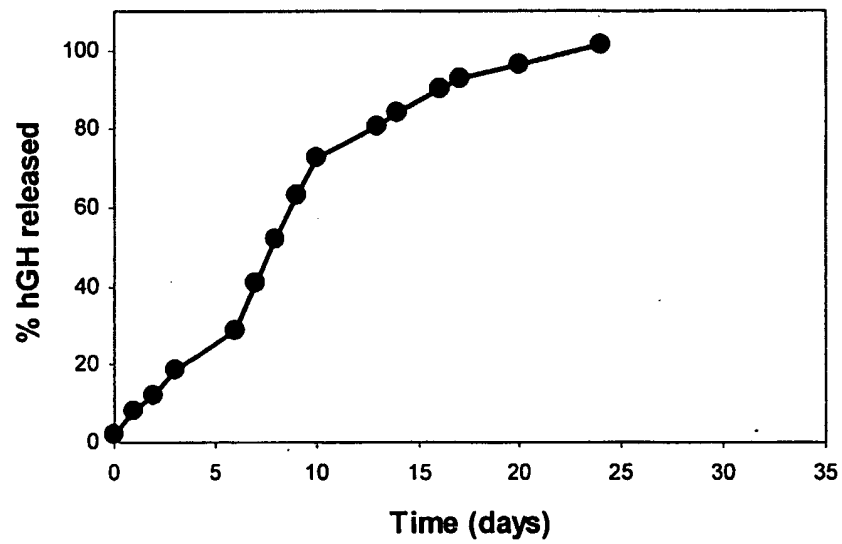

Figure 4

**Release profile of microspheres obtained from
the emulsion prepared according to example 4**

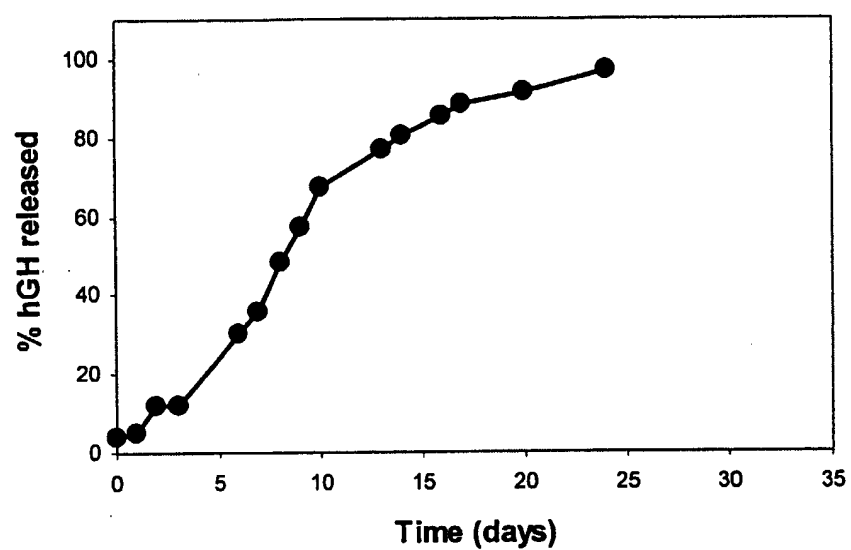

Figure 5

**In vitro release of hGH with and without
excipients (size exclusion chromatography)**
